

AI Adoption & Enablement

WeCan AI

Faster AI adoption, Risk Mitigation
and Immediate results

Starting at **\$359** per participant

Designed for teams of 12–15 participants..

Save 12% when **booking 2 teams**

Final pricing depends on customization and scope.

OUR APPROACH

Most AI training teaches tools. We do not.

At WeCan AI, we start with your business workflows and real operational problems and then show your teams how to solve them using AI. At the same time, we build AI critical thinking across the organization:

- what AI can and cannot do
- when to use it and when not to
- how to guide it for consistent, high-quality results

So your team doesn't just learn one platform.
They build a repeatable capability that keeps working as tools and models evolve.

OUR STRENGTHS

Trilingual training (English | Arabic | French).

We simplify complex AI concepts.

Built for non-technical audiences.

AI-enabled, workflows your team can use from Day 1.

AI safety-first habits: verification, confidentiality, and security.

KEY FEATURES

AI Foundation Training

Understand what AI can and can't do. Learn real limits, risks, and best practices.

Productivity Acceleration

Up to 3x productivity gains in 30 days (depending on workflow and adoption).

Department Labs

Hands-on sessions built for each department (HR, Legal, Marketing, Operations).

Tailored Enablement

Tailored to your industry, roles, workflows, risk level, and AI readiness.
